

OLSE Eco-School Team

We are the OLSE Eco-team (two pupils representing each year group) and we meet most weeks (with the help of Mrs Nicholson and Mrs Harrison) to work towards making our school a more sustainable and environmentally friendly place to be.

We are guided by Pope Francis and his mission to encourage us all to 'Live Simply', thinking about how the way we live our lives affects others and our planet.

We launched our endeavour to be an Eco School in September 2019 with a special 'Green Day' - each class undertaking creative and learning activities in order to develop awareness of the crisis facing our planet and how we can help make our school a more environmentally friendly place.
