

1,200 BC

What's it like to live in the Stone Age?

During this topic, children will have the opportunity to use a variety of different sources to find out what life was like during the Stone Age. They will learn about the clothes that they wore, how they lived, what they ate, what tools they used and about their homes and lifestyles.

The Stone Age was a broad prehistoric period during which stone was widely used to make implements with an edge, a point, or a percussion surface. The period lasted roughly 3.4 million years and ended between 8700 BCE and 2000 BCE with the advent of metalworking.

Start of Iron Age
